

REMARKS

In the prior Response to Restriction Requirement filed August 22, 2003, Applicants elected to continue prosecuting claims 1 through 38. Applicants also elected several species for prosecution on the merits.

Applicants elected chimeric proteins wherein the V_{β} region used for a chimeric protein comprises an entire V_{β} region as well as a portion of a C_{β} region that comprises the first nine amino acids from a TCR β chain constant region (C_{β}) linked to a human IgG $_{\gamma 1}$ constant region and/or wherein the V_{α} region used for a chimeric protein comprises an entire V_{α} region as well as the first nine amino acids from a TCR α chain constant region (C_{α}) linked to a human κ chain constant region. Applicants also elected the cytokine species of the cytokine or chemokine genus. Applicants further elected T cell lymphomas from the genus of T cell pathologies.

In the office communication mailed July 27, 2005, Examiner Schwadron noted that Applicants had not provided "a listing of all claims readable" on the elected species. Applicants herein provide a listing of all claims that read on the elected species. In the currently pending claims, claims 1 through 21 and claims 23 through 37 read on the elected species. Claims 22 and 38 do not.

Note that in the Response to Restriction Requirement filed on August 22, 2003, claim 38 was mistakenly listed as "canceled" in the listing of the claims, but discussed as if it was a pending claim. In the current listing of the claims, it is therefore marked as "original."

CONCLUSION

It is believed that all claims are now in condition for allowance. Notification to that effect is respectfully requested. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (858) 350-2309. Please charge any fee due in connection with this submission to Deposit Account No. 23-2415.

Respectfully submitted,

WILSON SONSINI GOODRICH & ROSATI
